

FOLLOW THE LIGHT GAME

Object of the Game:
 All players must take all three ray-pawns and bring them to the ray-zone. The first player to get all three ray-pawns to the ray zone is the winner.
 By the end of the game, every player will surely be better trained to follow the Ray of the Will of God.

ENJOY THE ADVENTURE AND GOOD LUCK!!!

1 die

Who goes first?
 Each player takes turns rolling the dice. Whoever rolls the highest number goes first.

- 1) Each player chooses a SpringWill, assembles it and places it on the corresponding start arrow.

- 2) Assemble the ray-pawns of your color and place them on the rays-place.

- 3) Choose your path to get to your color home. Players will take turns rolling the dice and move according to the number that they rolled.

- 4) After having taken the first ray-pawn, players must reposition their SpringWill on the start arrow before departing on a new adventure.

> Your SpringWill is allowed to land on an occupied space without bumping other SpringWills back to Start.

> Some spaces are marked by the 7 SpringWills. Read the following explanation to find out what each one means.

WITH JOY SPREAD THE JOY!
 Roll the dice one again. Give the number that you roll to the player that is farthest from their Ray-Zone.

FOLLOW FOLLOW THE RAY!
 Look carefully to where the compass points: on your next turn, move ahead in the direction that it points.

NOW STAY ALERT IN THE PRESENT MOMENT!
 You need to pay close attention and be quick: as soon as a player lands in this space, whoever is the first to grab the dice, gets a free roll.

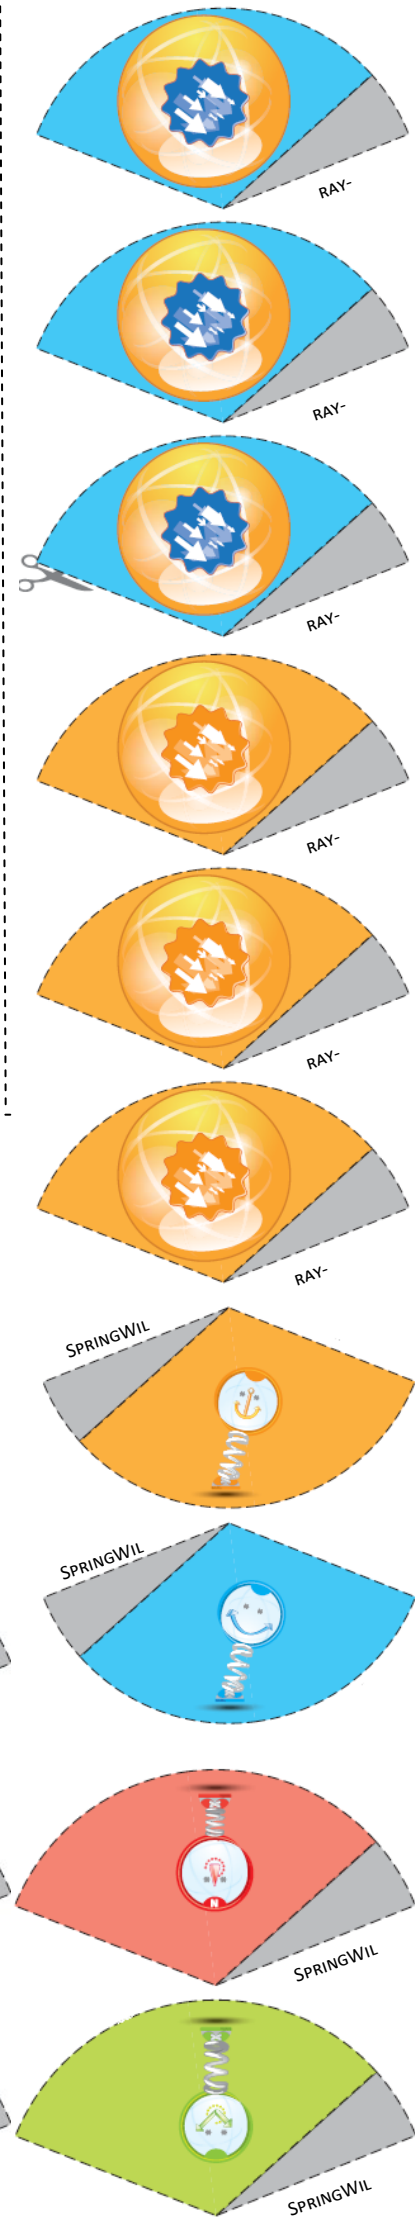

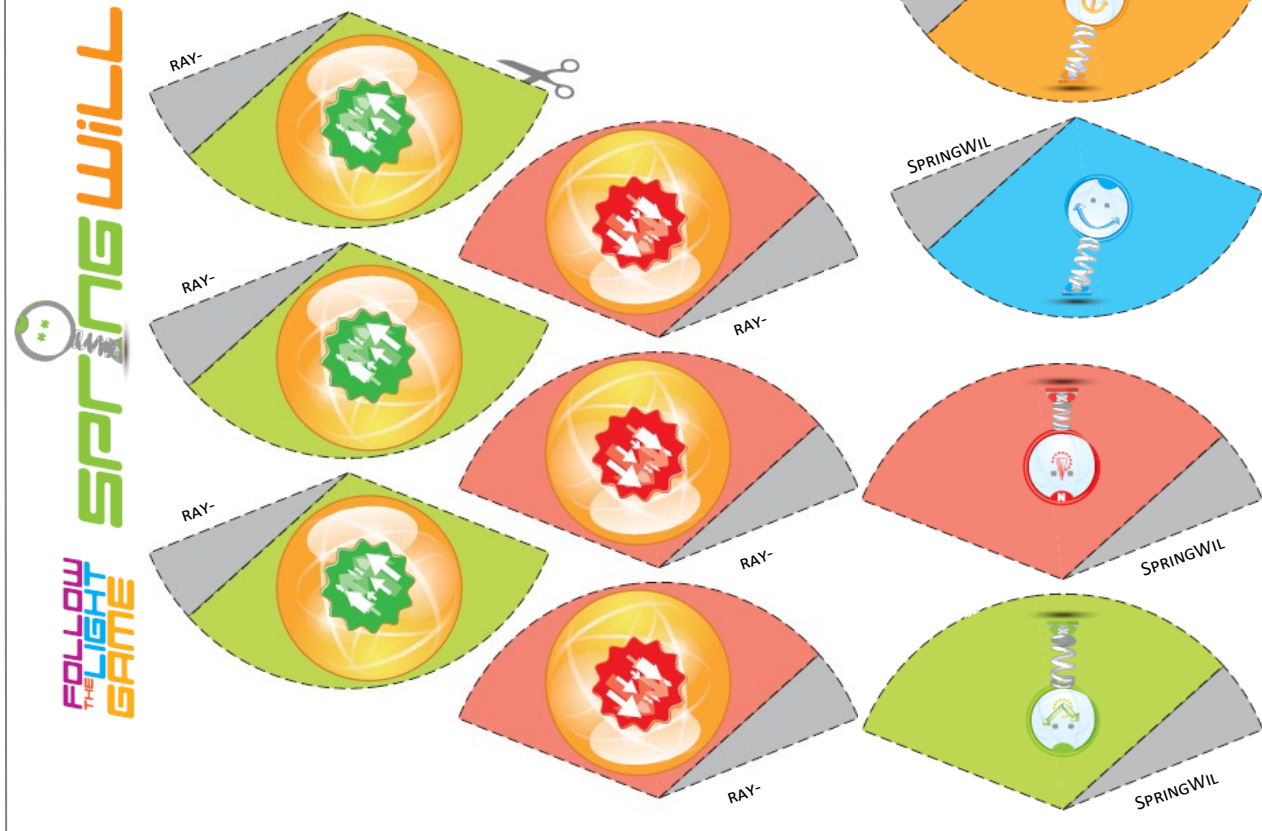

LISTEN LISTEN TO THE "LITTLE VOICE" AMONG ALL THE OTHERS. You can listen to any of the 3 voices:
 a) Give a free throw to another player;
 b) Make another player move 2 spaces back;
 c) Don't listen to any voice and don't do anything.

ANCHOR GO IN DEPTH.
 Stay put for this turn, but on your next turn, double your points.

ALWAYS GOD LOVES YOU ALWAYS!
 Before you roll the dice on your next turn, tell about a time when you felt God's love.

RESET YOU CAN ALWAYS START AGAIN!
 Go back 3 spaces, but you get a new chance: You can roll the dice again!

Choose a SpringWill.
 Assemble your SpringWill and Ray-pawn by cutting along the dotted line and pasting the gray portion to the back of the other end!
 Your game is all set!

To Begin Again

RESET

Reset has a secret to keep his spring body in shape: he knows how to begin again! Whenever Reset falls, it immediately takes a big thrust to jump up even higher than before!

"To begin again. This is the thought that should guide my whole day: to begin again. It's not when everything is fine that things are going well. It's when – sad or joyful, sick or healthy – we offer everything to God, trying to be like Him. St. Paul writes: "I can only say that forgetting all that lies behind me, and straining forward to what lies ahead, I keep racing towards the goal." (Ph 3:13) This is wonderful! Let's do the same!"

Walk

FOLLOW

Follow never leaves for a new adventure without a special compass. It helps Follow to stay on the ray and not stray from the right path.

"The will of God is the plan that God has for us. It's the pathway we must follow. When we were small, the Lord explained the will of God to us in this way. He told us: "I am like the sun – and from the sun come many rays." Each one of us must walk along a ray, and as each of us goes ahead on our own ray, we are walking towards God. Always

Live the Present Moment

NOW

Now is constantly training to be ready to spring forward and live to the fullest every present moment!

"So, when do we have to do God's will in order to love Him? (...) Now – right now - because we don't know if we will still be alive later. The only time in our possession is the present moment. The past is already gone, and we don't know if the future will ever come. (...) Just like someone riding on a train doesn't walk up and down the aisle so as to get to their destination sooner, so we have to remain in the present. The train of time moves ahead on its own. Living the present, one moment after another, we'll reach that decisive moment upon which our eternity depends, loving God's will in the present moment with all our heart, all our soul and all our strength."

Going in Depth

ANCHOR

The depths of the sea, that's Anchor's passion! His secret weapon is an anchor that holds him in incredible depths, and each time he discovers infinite treasures!!!

"The most important thing is to reach union with God. It's like divine nectar that you discover in your soul after having sincerely loved all day long and after having seen Jesus in everyone and practiced the art of loving. You might be praying and all of a sudden you feel within that he is calling you. He doesn't speak, but you feel it, you feel something divine that is so sublime and brings you such happiness that nothing on earth even comes close to it. You go within yourself and speak to him, and you feel that it's easy to talk with him. You don't have to recollect yourself. No, it's something simple, like living on this earth, and instead you are living in heaven."

With Joy Always

WINN JOY

With joy is always happy. He knows that he has discovered the secret to true happiness! What is it? Keep on loving, even when things don't go well!

"Jesus wants us to always be joyful, truly joyful. But in order for us to fulfill this desire of his, we have to know how to deal with suffering (...). In our times, there are many boys and girls searching for happiness, but they take the wrong path and their search ends in bitterness. Instead, we have to spread Christian joy everywhere, the joy that comes from embracing our sufferings (...)."

"(...) Go ahead all together. And even when challenges come, don't let them stop you! Rather, take each obstacle as a springboard toward a love that is even greater, deeper and more truthful!"

Listen to the 'Little' Voice

LISTEN

Listen is always tuned in ... the "high" notes pick up frequencies that signal the love of God. Listen knows how to distinguish them from all the others, and Listen faithfully follows!

"Therefore, to know the will of God is very, very important. How can we understand it? There are different ways. At times, the voice inside speaks to you clearly: this thing, yes; the other, no; do this, don't do that. Other times, you might be at home with your parents and they give you some advice - the advice of your parents is the will of God. Other times, you might be at school and the teacher tells you to do something - that's the will of God. (...) There are many ways of understanding God's will, but your heart tells you at once: this thing, or that, is the will of God. Doing the will of God is very important, very important!"

Love Always

ALWAYS

Always is tireless!!! He has thousands of ideas, and he never misses a chance to love, always!

"But how do we manage to love always? By "loving one neighbor at the time," all those neighbors that pass you by. It's obvious that you won't love only your family, but also your classmates, the other gen, friends of your family, people you meet in the store, the security guard, the mail carrier... in other words, everyone. So, we have to love them all, one by one, knowing that Jesus considers done to Himself every little act of love that we do to our neighbors. Take courage then! And throughout the day you will collect acts of love by the dozens! (...) We will have great joy in our hearts!"
