PLANET

Let's Colour
Our City
With the Teens 4 Unity

This is the city that you can colour piece by piece, as the players pass through the COLOURE!

UNJURED SPACES on the game board (we suggest you use a photocopy of this page for colouring).

Make your own piece:

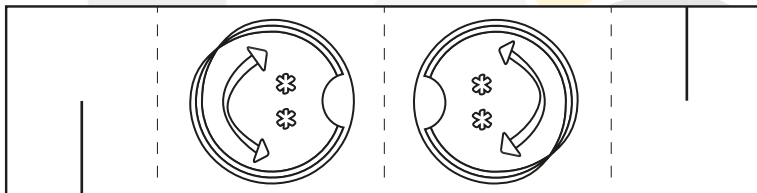

- You can personalize a bottle cap;

- Find a nice rock and paint it;

- Or else you can make a piece following the guide below.

Number of players

2-6 players

Materials included

1 two-sided game board
1 drawing of the city to colour (photocopiable)

Materials you need

coloured markers or pencil
a die
a Gospel

Useful information:

CULTURE OF GIVING

The Teens 4 Unity live and spread a new kind of culture: a culture based on giving and sharing. They live a world-wide communion of goods where, just like in one big global family, those who have more give to those who don't have enough. For more information visit our website www.teens4unity.net

SCHOOLMATES

This project was launched by the Teens 4 Unity. Thanks to the website www.school-mates.org classes in different countries communicate with one another and share their cultures, traditions and initiatives in building a united world. Through a solidarity fund, classes that want to help can support boys and girls in less fortunate countries who otherwise wouldn't have the possibility to study.

WORD OF LIFE

We boys and girls have a secret for living our lives to the full: Every month we choose a sentence from the Gospel and try to put it into practice, and we experience that all its promises really come true! If you want to know what this month's Word of Life is, and see the ones that have been published in the past, you can visit the website: wordteens.focolare.org

THE CITY OF TRENT

The first part of this game was modelled on the city of Trent, located in Northern Italy. It's the city where Chiara Lubich and her companions first began living the Gospel and... colouring a city. www.trentoardente.it
